

Yellow warning Wind

Between
03:00 Thu 29 Nov 2018 and
14:00 Thu 29 Nov 2018

A spell of wet and windy weather is expected, with a small chance of very strong and disruptive winds.

What to expect

- Some short term loss of power and other services is possible.
- Injuries and danger to life from flying debris are possible
- Some damage to buildings, such as tiles blown from roofs, could happen
- Road, rail, air and ferry services may be affected, with longer journey times and cancellations possible
- Some roads and bridges may close
- Injuries and danger to life could occur from large waves and beach material being thrown onto sea fronts, coastal roads and properties

Further details

A weather system will move northeastwards across the UK on Thursday bringing widespread strong winds. Inland gusts of 50 mph are likely with gusts of 60-65 mph in exposed locations around Wales and western England.

There remains a small chance that this system will intensify as it moves northeastwards bringing even stronger winds to southwest England, Wales and on into northern England and southeast Scotland.

 Low likelihood of medium impacts

Issued at 11:09 Mon 26 Nov, 2018 Updated at 10:24 Wed 28 Nov, 2018

Yellow warning
Wind

Between
03:00 Thu 29 Nov 2018 and
14:00 Thu 29 Nov 2018

Further Details (continued)

If this occurs, gusts of 70-80 mph could be seen, mainly in exposed locations, bringing increased likelihood of more significant disruption.

In either case, winds will moderate by late morning across western England and Wales, then by mid afternoon across northern England and southeast Scotland.

Heavy rain is also likely to affect southern and western England as well as Wales, and following on from recent wet weather this may lead to some very localised surface water flooding.

Reason for update

The warning has been updated to expand the yellow area; also to slightly increase the chance of 'medium' impacts.
